

GRAND WAILEA'S COMMITMENT TO PROTECTING OUR ENVIRONMENT

OUR GREEN PLEDGE

At Grand Wailea, environmental sustainability is a top priority. We are deeply committed to the conservation of natural resources, as all businesses and residents in an island community must be, through resort-wide water-saving, solid waste reduction and energy-saving measures.

OUR GREEN PROGRAMS

Food and Beverage

- 72% of our produce comes from local Hawai'i farms
- All cooking oil is recycled as biodiesel
- All scraps and leftover food are recycled and provided to local Maui farmers for animal feed

Landscaping

- Drought-resistant plants indigenous to Hawai'i planted throughout resort, resulting in low-water landscaping watered through drip-sprinkler system
- Green waste recycled into compost
- Utilization of Rain Bird Maxicom sensors to detect rain, reducing water usage

Guest Rooms and Meeting Spaces

- Temperature controls, motion detector lights and LED lights in all guest and meeting rooms

Resort Operations

- Steam generator exhaust heat redirected to laundry hot water system
- Commercial glass crusher allows for greater use of recycled glass

OUR GREEN SCORE CARD

Grand Wailea has...

- Eliminated 823k lbs of carbon dioxide emissions
- Reduced the need for fuel oil by 396 barrels
- Prevented 130k lbs of plastic from entering Maui's environment (projected for 2020)
- Generated 6,250 gal of biodiesel annually from recycled cooking oil, equating to Hawai'i having to import 104 fewer barrels of oil
- Recycled 150k lbs per month — or 1.8M lbs per year — of food scraps into animal feed for local Maui farmers, saving them nearly \$20k in grain costs annually
- Recycled over 10 tons of green waste every month into compost and soil amendments
- Reduced electricity needs by 60% by switching to CFL light bulbs
- Saved 700 lbs of paper towels every two months through reusable wash cloths
- Reduced electrical consumption by 55% annually with refrigeration-evaporator motors and fan

OUR GREEN GIFTS TO OTHERS

- Over 10,000 soaps, lotions and other products are donated to local Maui schools, shelters and first-responders.
- In a 2020 partnership with Clean the World, Grand Wailea recycles its soap and bathroom amenities as part of the #soapsaveslives movement, participating in wash programs that prevent diseases through handwashing to improve global health.

OUR GREEN INVESTMENT

- Grand Wailea has invested nearly \$1M in smart water-conservation measures, enabling the resort to save 202,671 gallons of water daily, enough water for about 2,250 homes on Maui, assuming the average home uses 80-100 gallons of water per day.
- Grand Wailea has invested more than \$4M in smart energy saving measures, enabling the resort to save more than 6 million kilowatt hours every month, enough power for about 12,000 homes on Maui, assuming the average home uses 500 kilowatt hours each month.

OUR GREEN AWARDS

- Energy Efficient Hall of Fame winner, named by Maui Electric Company
- Energy Industries Award winner for reducing electricity use
- Hawaii Green Business Program member
