

# Welcome to your home away from home!

Our owners are honored to assist in hosting your vacation. Although the villa is offered in the rental program, please remember that this is a private residence. We ask that you take care of it as if it were your own. Please review the following guidelines and suggestions for proper care.

**Personal items may not be hung on your balcony or placed at the front door at any time. We do not allow smoking in the villa, including the lanai\balconies. The smoking area is located across from the villa (outside garage).**

## Appliance Operating Instructions

### Air Conditioning:

Please ensure that all Lanai doors and windows are closed and secured.

Use the +/- button with the temperature icon on the right side of the face plate to adjust to desired setting.

After adjusting temperature use +/- button with the clock icon on the left side of the face plate to adjust the length of time desired. If you press the – button until a time is no longer displayed, the temperature will hold at all times until a new temperature is selected. The display on the bottom left corner of the thermostat should read, “Now on Hold.”

### Barbeque Grill:

1. Open the hood.
2. Push in and turn the gas control knob counter clockwise, quarter turn.
3. Keep your face as far away from the burners as possible.
4. Press and hold the ignition button that corresponds with the gas control knob until the burner lights.
5. Open the hood.
6. Push in and turn the gas control knob counter clockwise, quarter turn.
7. Keep your face as far away from the burners as possible.
8. Press and hold the ignition button that corresponds with the gas control knob until the burner lights.
9. Listen for a “woosh” sound. If the burner does not light after approximately five seconds, turn the control knob to the OFF position. Wait five minutes until the gas clears..Then repeat until it lights.
10. If a burner is lit, flames will be visible through a series of vertical slots just above the control knob of the corresponding burner. Keep your face away from the front panel.
11. Upon successful lighting, repeat the process for the other burners you wish to light.
12. Preheat the grill for 10 minutes on HIGH with hood closed.
13. Set burners at the desired level.
14. If cooking with indirect heat, turn off the burners that are under the food.

**Note: Fire Extinguisher is located in the cabinet next to grill**

**Dishwasher:**

1. Open dishwasher and insert one dishwashing packet (provided).
2. On the top of the door, push the On/Off button on the left hand side.
3. Choose the 'regular' option button.
4. Make sure to close the door completely.

**To Operate Stove:**

1. Push button in the top right corner to lift the air ventilation system.
2. Turn on the air vent and choose the desired level of ventilation.
3. To turn on the stove, push down the desired burner knob and immediately turn the knob counter clockwise towards high.
4. When finished using the stove, make sure to push the vent button to lower.

**To Operate the Washing Machine:**

1. Open the upper left drawer and insert the following as desired:
  - Lower left compartment-Laundry detergent
  - Lower right compartment-Fabric softener
  - Upper middle compartment-Liquid bleach
2. Turn power on.
3. Choose desired wash cycle.
4. Choose desired wash temperature and spin speed.
5. **Press and hold** the start button.

**To Operate the Dryer:**

1. Turn power on.
2. Choose desired cycle.
3. Adjust desired timing.
4. Adjust the temperature and dryness cycle.
5. Press and hold the start button.
